

**Tour description / route characteristics:** The route leads from Sonthofen to the Bussen near Riedlingen. The tour is characterized by many small and smallest roads (1 to 1.5 lanes). And therefore most suitable for "motorcycle hiking". But it is very much fun. However, it is hard to find the route without a navigation system, because even on good 200,000 m maps the one or other section of the route is not marked. Therefore the tour is of course available for TomTom and Garmin users to download directly.
